DIABETIC SCREENING CAMP

Early Detection for
a Healthier Life

Paavai
Community
CONNECT 360

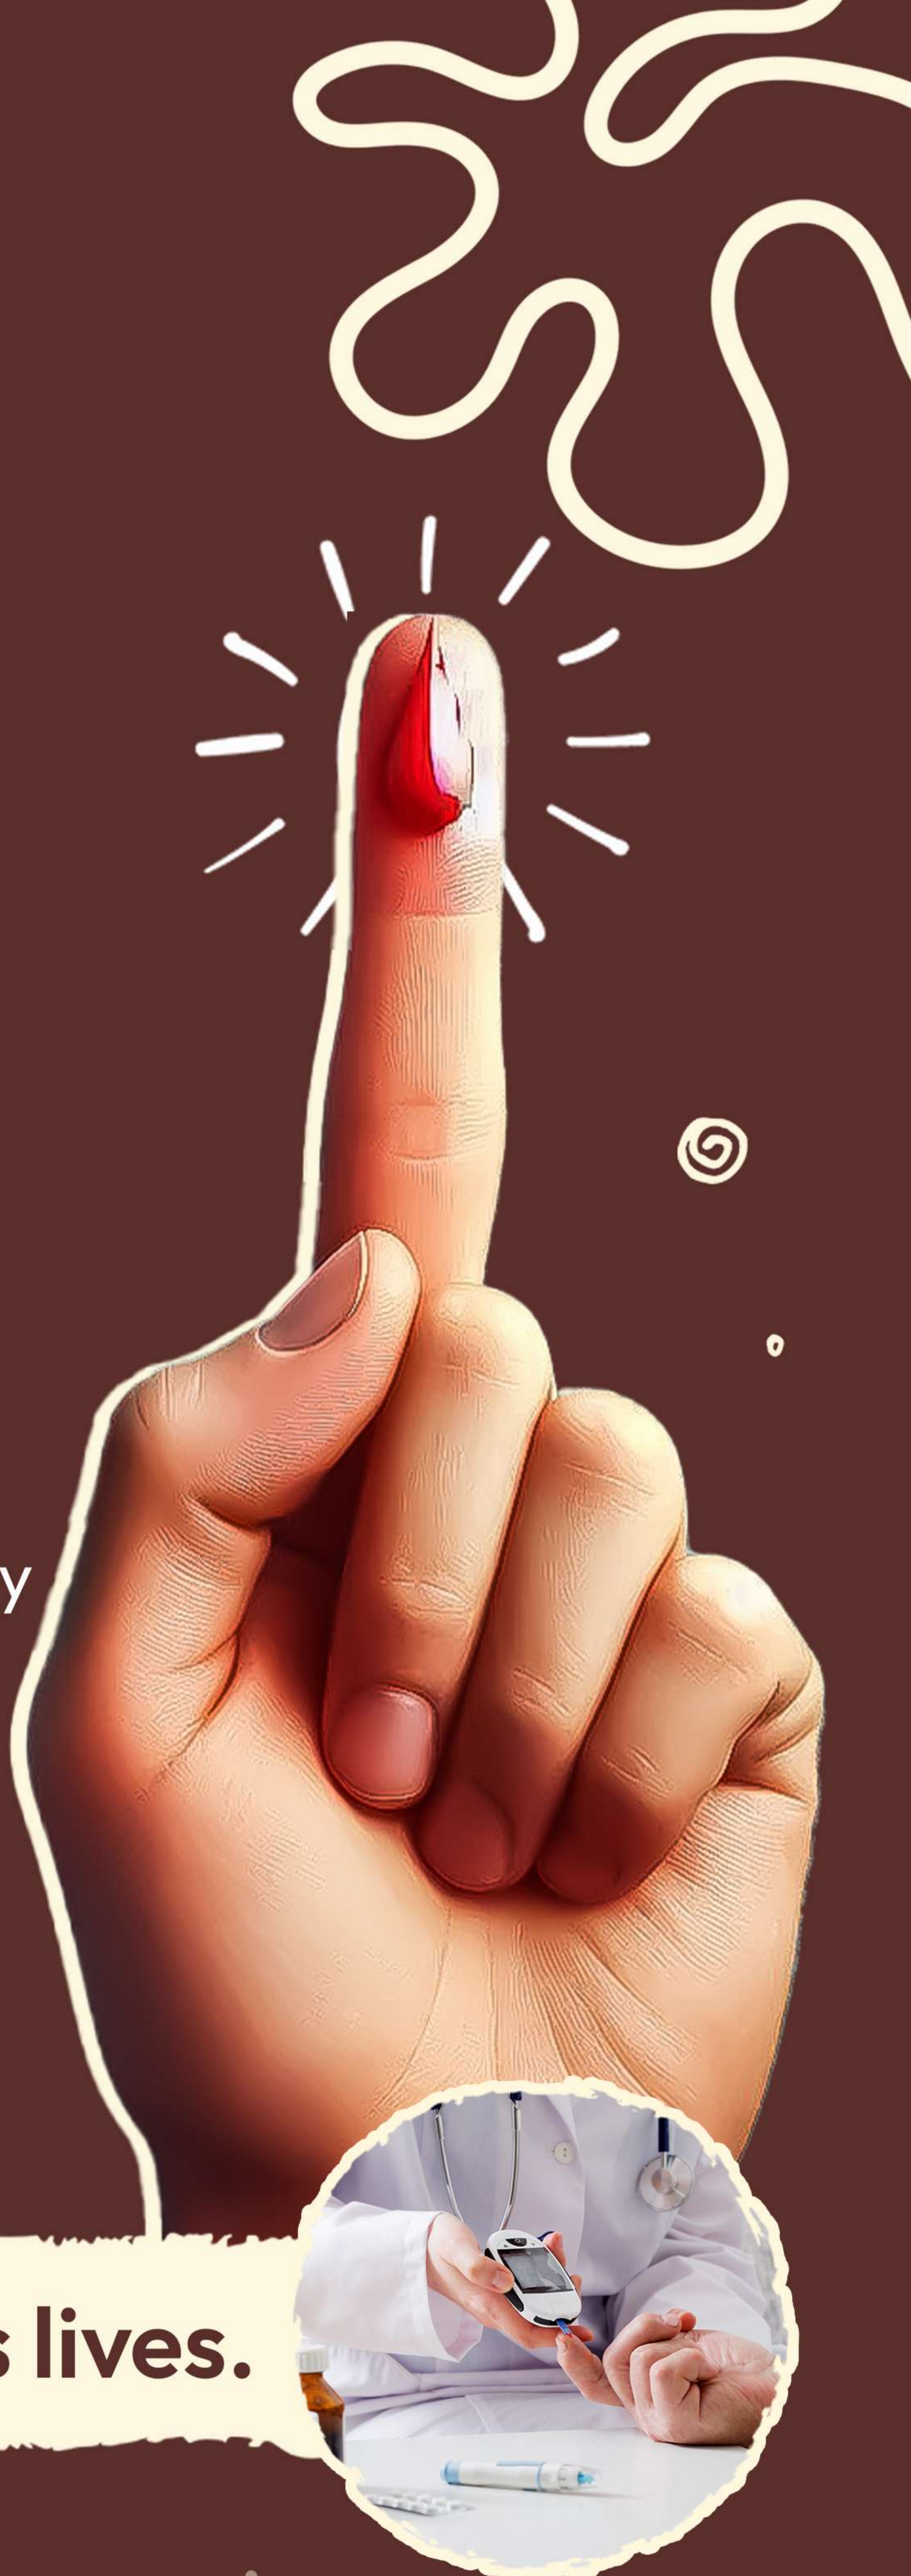

Diabetes Often Goes Undetected

Millions of people live with
diabetes without knowing it.

Regular screening helps identify
the condition early, enabling timely
treatment and preventing serious
health complications.

Early detection saves lives.

Taking Preventive Healthcare Closer to Communities

Through & Paavai Arogya & Community Connect 360, Paavai Foundation organized diabetic screening camps in rural communities to promote:

Early diagnosis

Health awareness

Timely medical referral

Preventive healthcare

Namakkal District

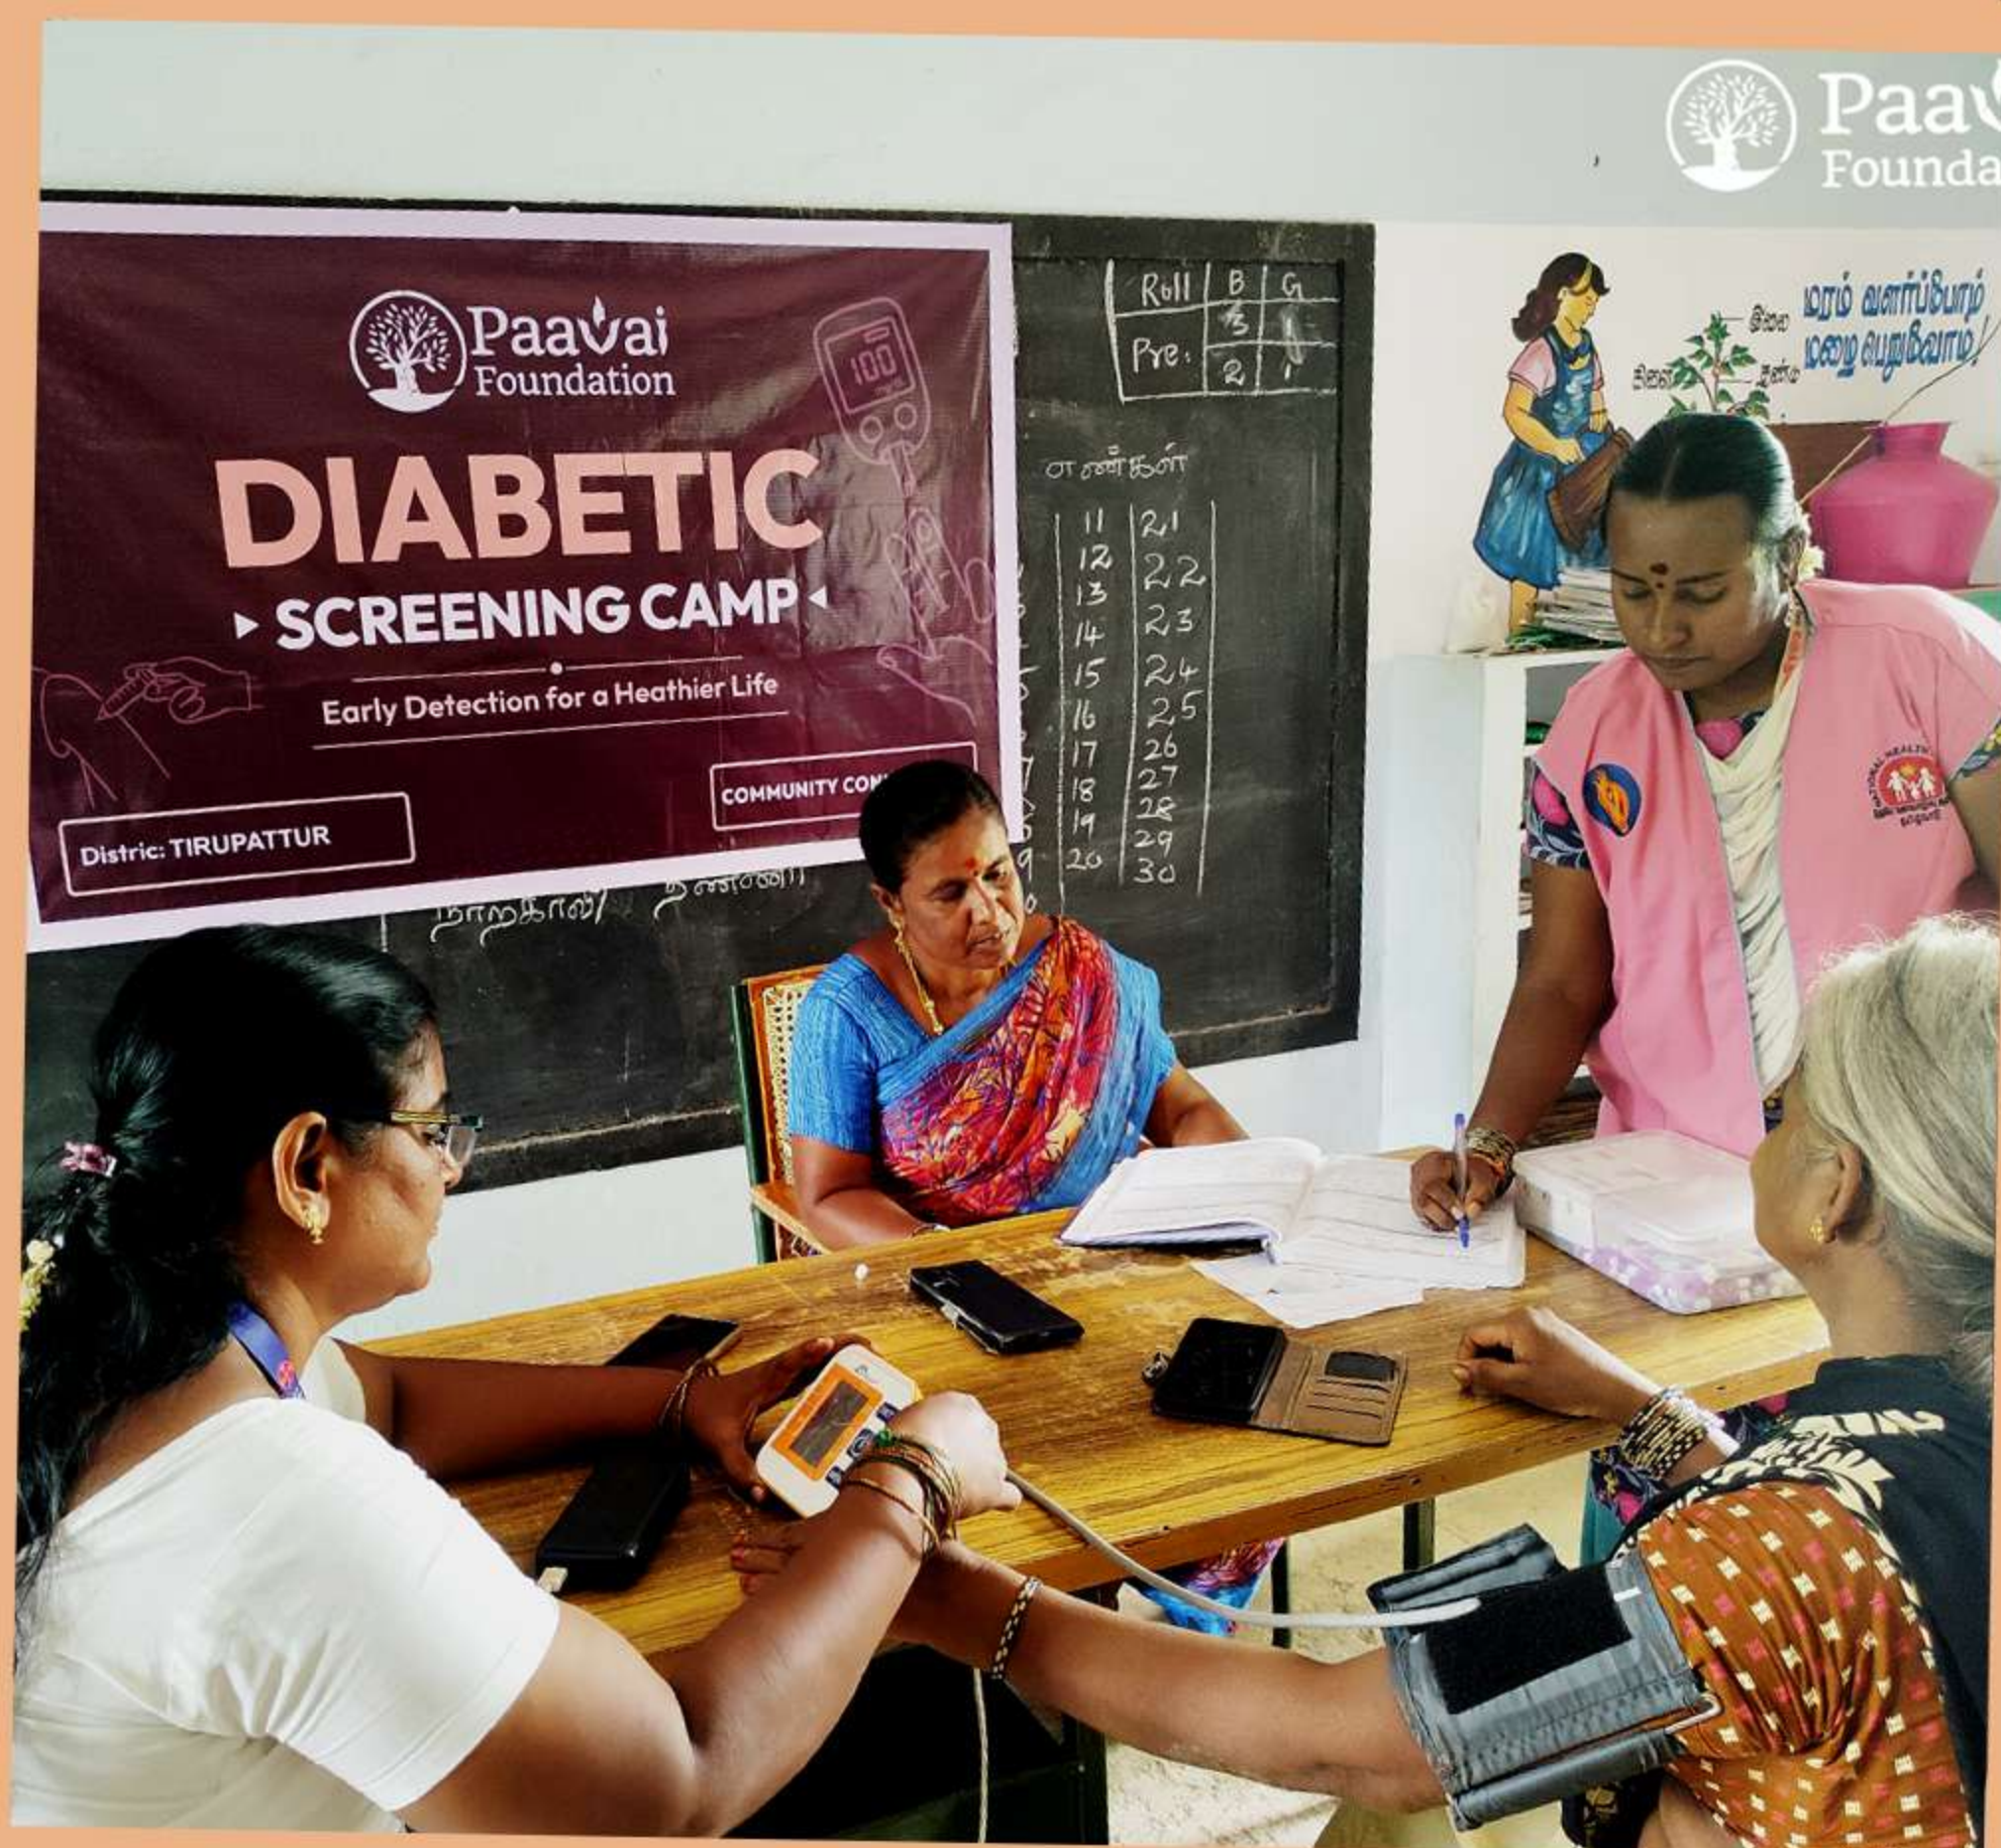

Empalli kailsampalayam Village - Namakkal Block
